SUMMARY

Computer Science undergraduate specializing in Cloud Computing and Automation. Apply strong problem-solving and analytical skills to develop practical solutions for real-world challenges. Demonstrate the ability to learn new technologies quickly, collaborate effectively, and translate ideas into efficient, scalable applications.

EDUCATION

VIT Bhopal University Sept 2023 – Ongoing
B.Tech in Computer Science – Specialization in Cloud Computing and Automation CGPA: 8.83/10

TECHNICAL SKILLS

Programming Languages: Java (Proficient), Python, JavaScript
Libraries & Tools: GitHub, ReactJS, Node.js, Express.js, Tailwind CSS, SQL, MongoDB, SQL, AWS, Docker, NumPy, Pandas, Scikit-Learn

PROJECTS

StudentSathi – A One-Stop Digital Guide for Student Empowerment Nov 2025 – Jan 2026
ReactJS, Node.js, Express.js, MongoDB, CSS, Tailwind CSS GitHub Repository

- Engineered a full-stack MERN application to simplify students’ access to government welfare schemes, scholarships, educational resources, and essential document services.
- Developed REST APIs and integrated MongoDB for efficient CRUD operations and content management.
- Implemented dedicated modules for Government Schemes, Document Assistance, Skill Development, Certificate Guidance, and Student Support.

My Meal Mate – Personalized Meal Recommendation Sept 2024 – Dec 2024
Python, Pandas, NumPy, Scikit-learn, HTML, CSS GitHub Repository

- Developed a personalized meal recommendation system based on user preferences, nutritional requirements, and dietary restrictions.
- Built a structured nutritional dataset and implemented a recommendation algorithm using Python and Scikit-learn.

Hybrid Ensemble Model for Enhanced Cancer Cell Classification Jan 2025 – April 2025
Python, Scikit-learn, OpenCV, Pandas, Matplotlib GitHub Repository

- Developed a machine learning system to classify cancerous and non-cancerous cells from medical images using ensemble learning techniques.
- Preprocessed image datasets using OpenCV to improve model performance and classification accuracy.
- Evaluated model performance using standard classification metrics and visualized results using Pandas and Matplotlib.

INTERNSHIP

Data Analyst Intern Jan 2026 – Feb 2026
Null Class Remote

- Analyzed real-world datasets using data analysis and statistical techniques to identify trends, patterns, and anomalies.
- Performed data cleaning, preprocessing, and exploratory data analysis to improve data quality and extract actionable insights.

OTHERS

Certifications: ServiceNow University – Virtual Internship Program
Languages: English(Proficient), Hindi(Proficient), Malayalam(Native), Japanese(Beginner)
